

## PARAGON ERRATA

As we develop our games, we try our best to ensure quality, but inevitably things slip through the cracks. This errata will be updated, as necessary, as any tweaks or changes are found. Simple typographical or layout issues are not indicated here, but any rules changes or clarifications are. All PDF versions of our books will contain all the latest errata, as given in each revision listed below. On-demand print books will also be updated with the latest errata.

You can locate your Paragon revision number on page 2 of your book (on the back side of the title page), just below the copyright notice.

### Revision: 2.0.13, 12/22/16

- p. 78: **Heft/Recoil:** If a weapon's final calculated Recoil is more than the shooter's STR, each shot fired inflicts damage to the shooter's arm(s) with an HDL equal to the amount by which its Recoil exceeds their STR (*OTR 1*).
- p. 159: **Sending:** The difficulty is based on distance, and can only target people whose identity and approximate location you know.
- p. 120: **Halberd:** TR is 4
- p. 211: **Elemental Burst:** Strikes a minimum of 1 body location.
- p. 229: **Mental Clarity**  
This spell filters out any mental influence on the target, including charms, illusions, sleep, or magical insanity. Any such spells attempting to target the individual have their difficulty increased by your casting check.
- p. 232: **Petrify**  
Enhancer: A pinch of stone dust
- p. 236: **Question**  
Enhancer: A scrap of paper and a piece of charcoal.
- p. 240: **Shape-shift**  
Add: When changing form, the target can choose whether equipment worn changes as well.
- p. 242: **Shield of Retribution**  
Any creature that successfully attacks you in close combat suffers HDL/OTR(Mars) damage to a random location...
- p. 252: **Vulnerability**  
Enhancer: A bit of flesh from an animal's underbelly.
- p. 271: **Flight:** Flying creatures can fly while carrying up to 1/3 their Max Load.
- p. 280: **Dolphin:** Perception is 1d10+6
